

Bright Horizons
FOUNDATION FOR CHILDREN

Mission Statement

The Bright Horizons Foundation for Children is a nonprofit organization focused on brightening the lives of children, youth, and families in crisis. The Foundation believes that we can make the world a better place by engaging Bright Horizons' employees, clients, families, friends, and community partners, and their passion for meeting the needs of all children. We do this by creating comforting places for children in crisis to grow and play, strengthening their families, supporting our communities, sharing our knowledge, and encouraging others to join us in making a difference.

We believe . . .

In Children

- ...that every child has the right to a happy childhood.
- ...that all children and their families need safe, comforting places where they can grow, bond, and develop through play together, especially in times of distress.
- ...that all children deserve the opportunity to reach their full potential.

In the Power of Individuals

- ...that every individual has the power to change lives and make a difference.
- ...that recognizing volunteer efforts can inspire others to join in.
- ... that through our programs, we provide a way for people to brighten lives, connect with others, and help their communities.

In the Value of Knowledge

- ...that our greatest assets are the talents of Bright Horizons' employees, clients, families, friends, and community partners, and their passion for meeting the needs of children.
- ...that we can be a constant and committed support to children and families facing troubled times.
- ...that sharing our knowledge and commitment to quality helps our partner organizations better meet the needs of the children in their care.

In Working Together Toward a Better World

- ...that we have a responsibility to make the world a better place for all children.
- ...that we strengthen our communities by supporting the causes that matter to members of the Bright Horizons family.
- ...that by working in partnership with others who care about these issues, we can change the world.
